

ANDROID PROGRAMMING

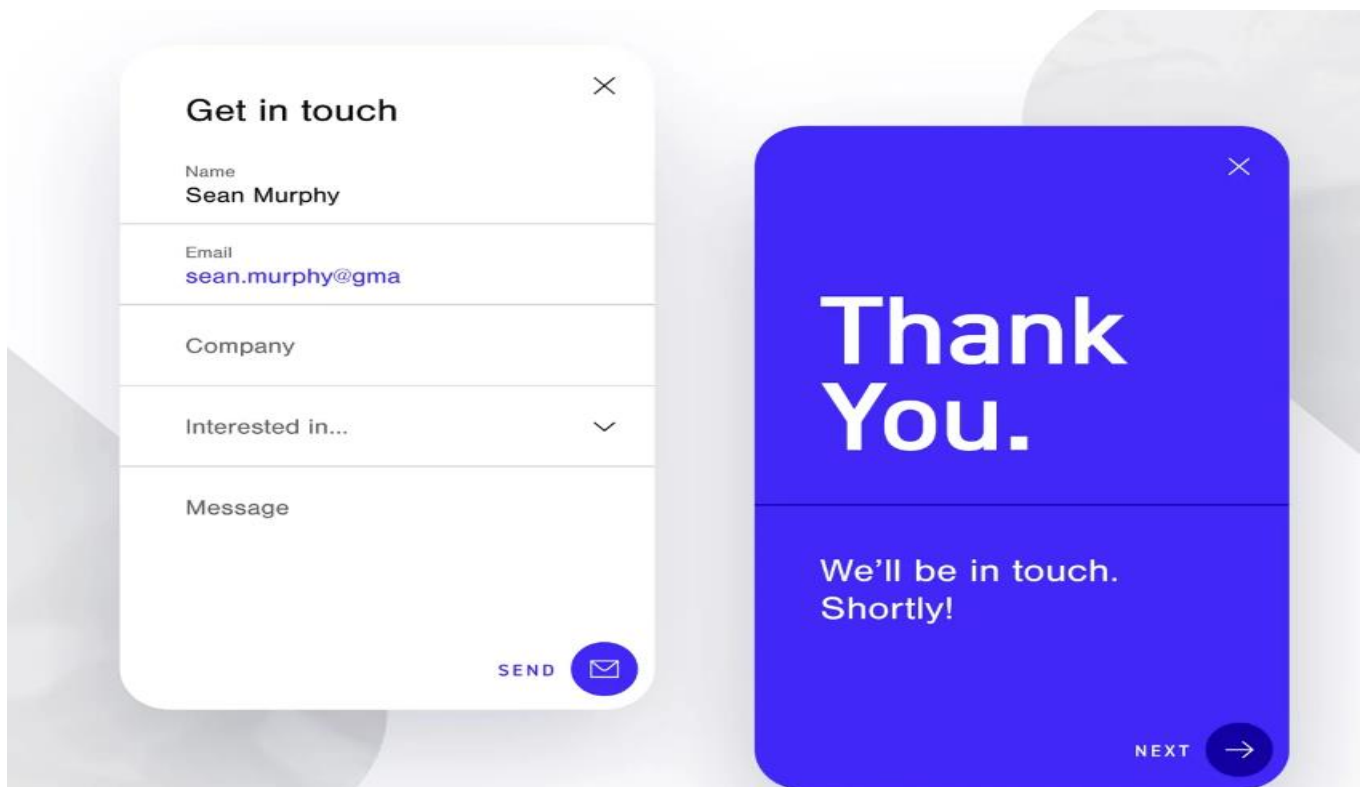

TOPIC: USER INTERACTIVE & DASHBOARD FORMS

1. Create a form as shown below

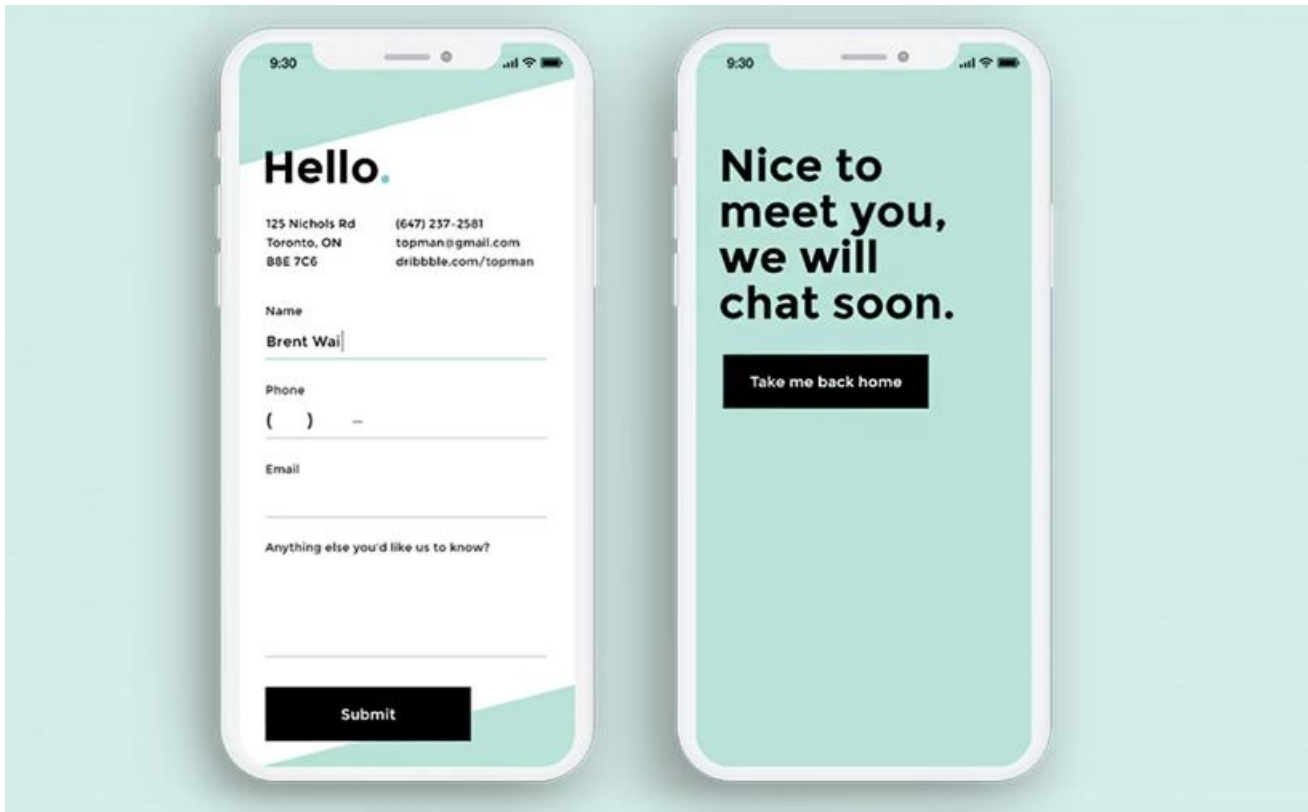

A registration form titled "Registration Form :". It contains a "Name" label followed by a text input field. Below this is a "details XX" label followed by two side-by-side text input fields. Underneath is a "details YY" label followed by a single text input field. Three vertical dots are centered below the input fields. At the bottom is a purple button labeled "Button".

2.

Two mobile app screens are shown. The left screen, titled "Get in touch", has a close button (X) in the top right. It contains form fields for "Name" (filled with "Sean Murphy"), "Email" (filled with "sean.murphy@gma"), "Company", "Interested in..." (with a dropdown arrow), and "Message". A "SEND" button with an envelope icon is at the bottom right. The right screen is blue with a close button (X) in the top right. It displays "Thank You." in large white text, followed by "We'll be in touch. Shortly!". A "NEXT" button with a right arrow is at the bottom right.
